Location: Jakarta, Indonesia

Professional Summary

Software Engineer with 6+ years of experience building scalable web applications and frontend platforms using React.js and Next.js. Experienced in developing high-performance, SEO-optimized, and API-driven applications in fast-paced environments.

Strong background in component architecture, RESTful API integration, SSR/SSG rendering, and scalable frontend systems. Comfortable collaborating across product, design, and backend teams to solve complex business problems and deliver production-ready solutions.

Experienced working in startup-style environments with high ownership, rapid iteration cycles, and cross-functional collaboration. Passionate about building reliable digital products, improving system performance, and creating maintainable engineering solutions that scale.

Core Competencies

- Software Engineering & Scalable Web Platforms
- React.js / Next.js Development
- SSR / SSG Architecture
- RESTful API Integration
- Component-Based System Design
- Frontend Performance Optimization
- Responsive & Mobile-First Development
- Scalable Frontend Architecture
- Cross-functional Agile Collaboration
- Technical Problem Solving & Debugging
- SEO & Programmatic SEO Systems
- Deployment & Production Maintenance

Technical Skills

- **Languages & Frameworks**
JavaScript (ES6+), React.js, Next.js, PHP, HTML5, CSS3, Tailwind CSS
- **APIs & Backend Exposure**
REST APIs, Supabase, Firebase, Airtable, API Integration, Authentication Flow Integration
- **Infrastructure & Deployment**
Docker, Nginx, Vercel, Git, GitHub
- **Tools & Workflow**
VS Code, Agile Development, Responsive Development, UI/UX Implementation

Work Experience

- **Kreatif Infotek Global**
Frontend Developer
2024 - 2026
 - Developed responsive and scalable web applications using React.js and modern frontend stack
 - Integrated third-party services such as Airtable and CRM APIs to automate workflows
 - Improved website performance, SEO structure, and mobile responsiveness
 - Collaborated with UI/UX designers and backend engineers to deliver production-ready features
- **Kreatif Infotek Global**
Frontend Developer
2019 – 2024
 - Developed responsive and production-ready web applications
 - Built reusable and modular frontend architecture for scalable development
 - Integrated REST APIs, Airtable, and third-party services to automate workflows
 - Improved website performance, SEO structure, and mobile responsiveness
 - Collaborated closely with UI/UX designers and backend engineers in agile environments
 - Delivered cross-device compatible applications optimized for WebView and mobile platforms

- **Strategies 360**

Web Developer (WordPress & Frontend)

2015 – 2019

- Developed and maintained custom WordPress themes and plugins
- Built and enhanced web applications for multiple clients across industries
- Focused on frontend implementation, UI consistency, and usability improvements
- Optimized website performance and user experience

- **Upword Technologies**

Web Developer (WordPress & Frontend)

2013 – 2015

- Developed and maintained custom WordPress themes and plugins
- Built and enhanced web applications for multiple clients across industries
- Focused on frontend implementation, UI consistency, and usability improvements
- Optimized website performance and user experience

Selected Projects

- **SKCK Online Dashboard – Baintelkam Polri**

Frontend Engineer / Next.js, React, TypeScript

- Built modular and reusable UI components for dashboard system
- Integrated frontend with backend APIs using Axios & React Query
- Optimized layout for WebView usage and cross-device compatibility

- **TCMMP Mini Program – Telkomsel Cloud Photo**

Frontend Developer / JavaScript, Tencent Cloud

- Developed mini program with routing system and API integration
- Built interactive UI with focus on usability and performance
- Ensured smooth user flow across application features

- **ArkoPay (arkopay.com)**

Frontend Developer & Maintenance

- Led frontend development and ongoing maintenance
- Built dynamic pages integrated with Airtable database
- Improved content structure and scalability

- **Next Steps Idaho (nextsteps.idaho.gov)**

Frontend Developer

- Maintained and enhanced website with real-time API integration
- Managed dynamic content structure and updates

- **Frogsxy Platform (frogsxy.com)**

Frontend Developer (React / Next.js)

- Built dynamic page rendering system using **Next.js (SSR/SSG)** to support large-scale SEO pages
- Developed a scalable frontend architecture to support **Programmatic SEO (PGSEO)** strategy.
- Integrated structured data and optimized metadata for improved search engine visibility.

Education

- **Muhammadiyah University of Purwokerto**

Bachelor of Information Technology (Software Development)

September 2007 – October 2012
